New Zealand Programming Contest

REGISTRATION GUIDE – OPEN CATEGORY TEAMS

Eligibility Requirements

This category is open to anyone living in New Zealand at the time of the contest who has had no part in preparing any of the problem set.

Registration

To register, a team requires a team manager who will undertake to pay the fee of $120 for the team. The team manager may be one of the contestants. This person may register as a team manager on the NZPC Website.

Contestants must also register with the NZPC at the start of the contest.

Teams

A team may contain up to 3 contestants. If space is limited at a site, teams with 3 contestants will be given priority over smaller teams.

Team managers may reserve space for their teams through the NZPC Website.
